

## Join the ENA Political Corps and make a difference.

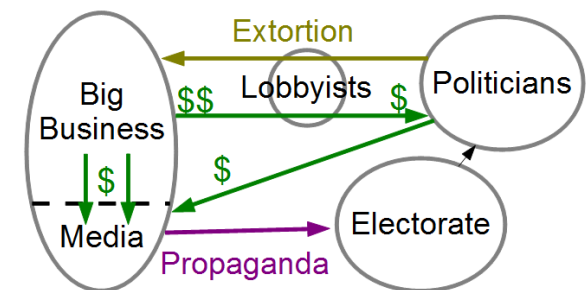

We are looking for people interested in running for office, supporting friendly candidates, political research, policy creation, legal analysis, creating newsletters, creating political advertising, and outreach and a host of other political activities.

Although not a political action committee or candidate support organization, we organize and coordinate with others for meaningful political change.

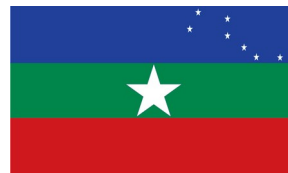

Contact your local ENA representative for more information about how you can become involved.

We, Ourselves, Together

## Political Change is Necessary

The Euramerican National Assembly**

# Corruption in Government

The government has been taken over by a hostile opposition. It is run by a globalist, Marxist and Empire building elite who seeks to suppress our national expression and promote undesirable or unhealthy societal conditions.

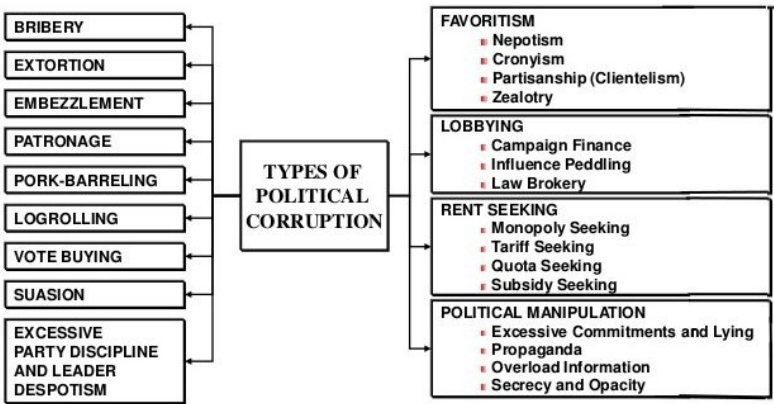

## Meaningful Political Change is Necessary

No political organization represents our people or interests in the halls of government. We must mobilize to create meaningful positive change.

# Remove the Corruption

We can work to make government more responsive to our needs with our votes and voices.

## Create More Representative Government

Ultimately, by organizing politically, we can make the government represent our interests by emplacing our own representatives and hindering oppositional politicians.

### The ENA Political Corps

Engages in political organizing and mobilizing to create a political environment more friendly to our national interests.

**Our voices, our votes will be heard!**
